

Coastal Inspired Carport at Runaway Bay

It's amazing the impact a brand new Carport and matching fence can have on a home.

We recently built a beautiful "Coastal-Inspired" Carport, Fence and Pedestrian Access Gate at our clients home in Runaway Bay. Located on a corner block, this magnificent home is now completely transformed - with renovations on the home now complemented by the matching Carport.

Adhering to the style of the home, we constructed a rendered white fence and matching double carport. We used low-profile guttering and a featured "trim" that runs along the entire fence-line. The design has a really modern, coastal feel to it.
